
Franklin County Historical Society
P.O. Box 342
Brookville, Indiana 47012

On January 19, 2004 the board of director of the Franklin County Historical Society voted to support the proposed trail between Brookville and Metamora. We feel that the history of transportation in this historic valley needs to be saved. Resources like this are not renewable and need to be given special treatment and care so that future generations can learn about our heritage.

A biking and hiking trail is an excellent way to preserve this corridor. Citizens of Franklin County and surrounding areas will be able to take a peaceful walk or ride on the old towpath and view several of the old locks from the canal. They also will be able to view the Whitewater River and Valley it all of its beauty.
